Queimadas

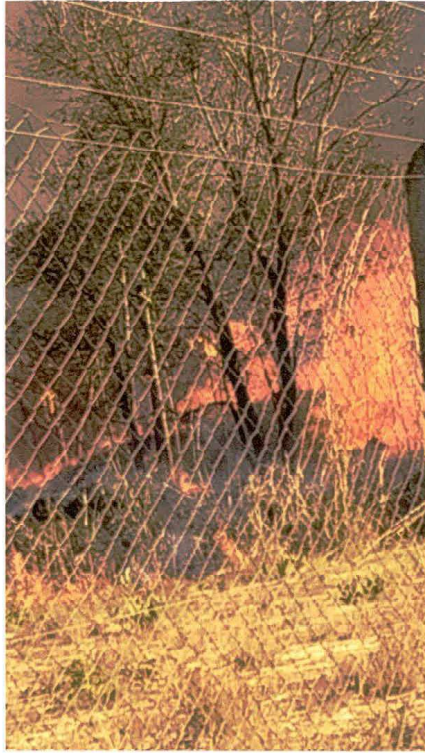

A queimada causa que os animais morrem no fogo e se pega fogo no laranca causa prejuizo pro dono e depois ele tem que gastar dinheiro pra fogo adulto no laranca e os animais fazem nêntos no chão e quando o fogo fica perto os seres humanos vão lá e mete fogo e eles acham bonito até mas não sabe o prejuizo que causa que o ar fica poluido e também causa que os animais entram em extinção. e então sabe não aque o fogo causa o fogo causa tanto coisa né então fogo a uma parte não mata fogo.
